

## How to import Outlook contacts to Zoiper Communicator Biz

This guide shows you how to import Outlook contacts to Zoiper Communicator Biz.

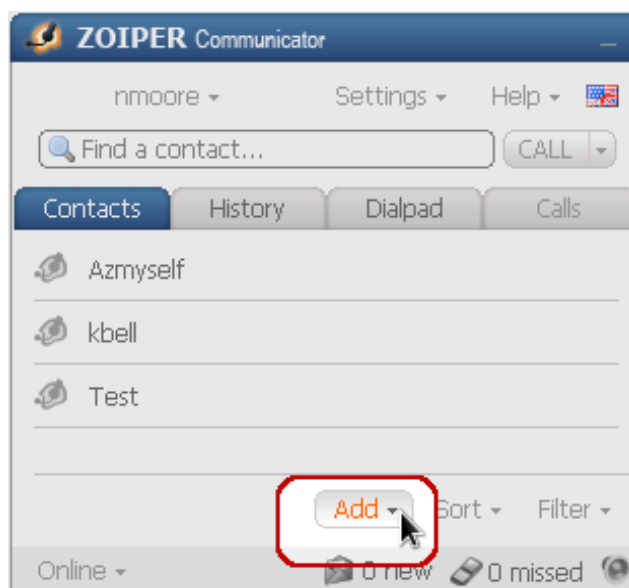

### Why do I need to import my Outlook contacts to Zoiper Communicator?

*This feature is only available for Zoiper Communicator Biz for Windows.*

You may find it useful if you want to dial your Outlook contacts directly from Zoiper. You can always use the [Outlook Integration](#) instead.

### How to import my Outlook contacts to Zoiper Communicator Biz?

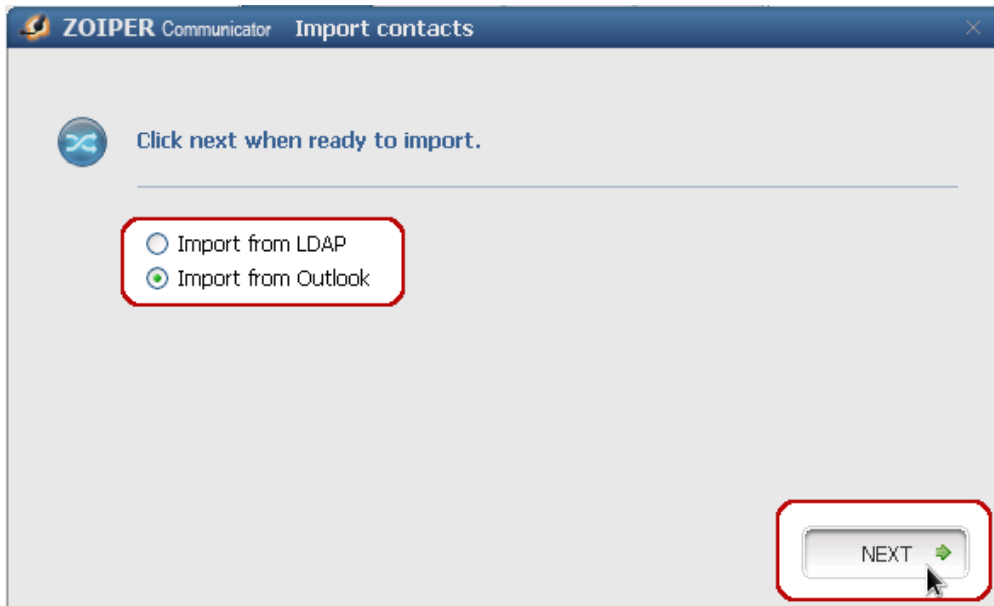

Please start your Zoiper Communicator and press the **Add** button on the middle bottom part of the main window.

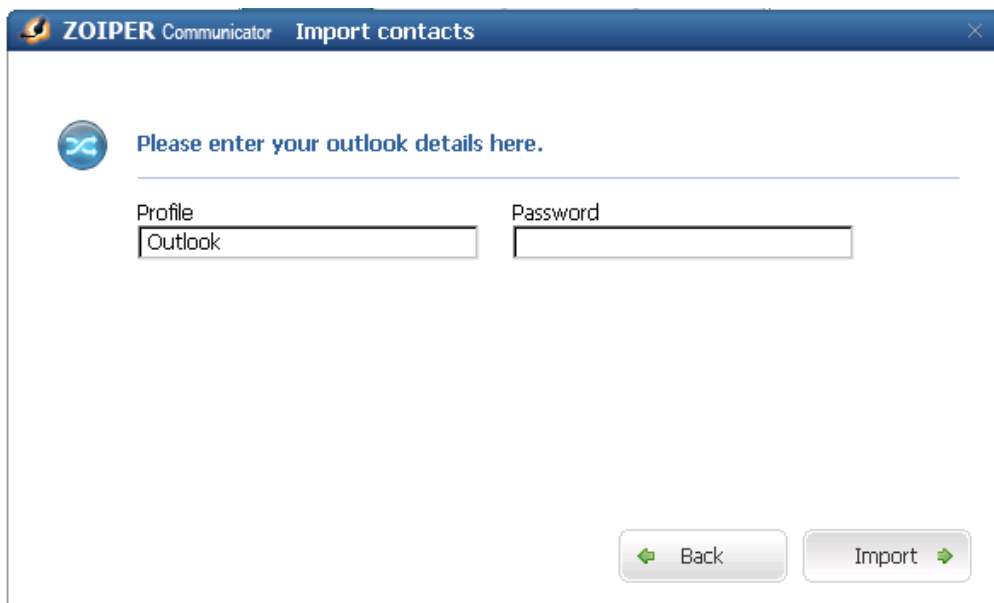

Select "Import from another source".

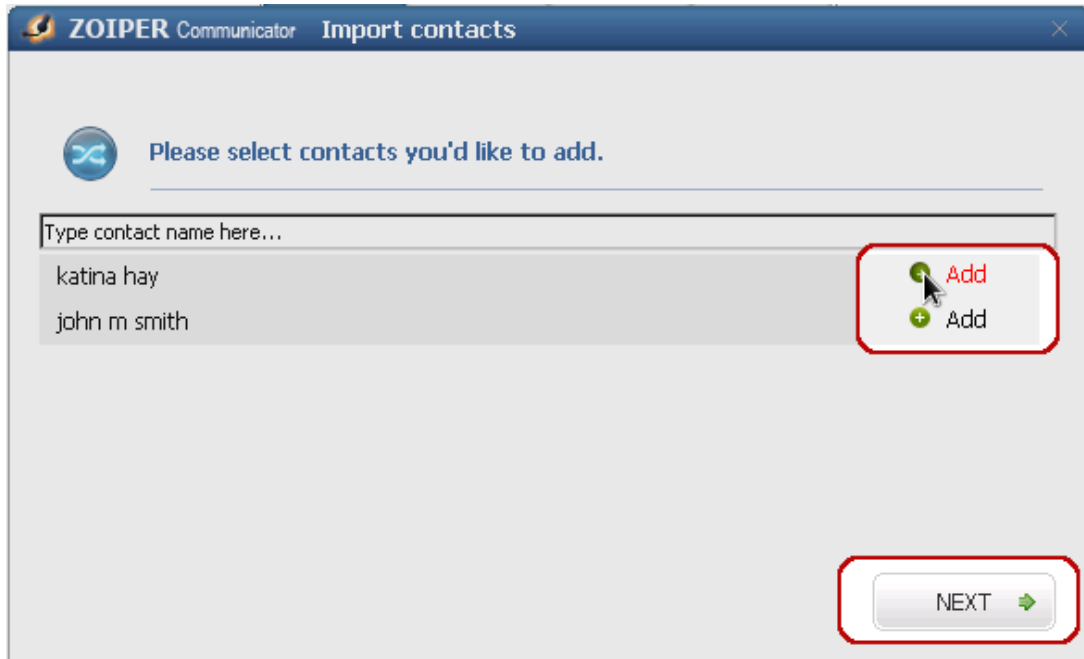

Select the needed source – Outlook.

Provide your Outlook profile details when asked, or click **Import** to use the default profile.

Please select the contacts you need to import and press **Next**.

Use the **[x]** button on the upper right corner to exit the Import wizard.
